First sighted the bright light high and above and ahead of the car. Then the object came down and ahead of the car. The object appeared bright and then would fade out and disappear. Then it would reappear. While going down Wilmington Pk. it would appear to stand still on just one side of the road and then move to the other side and it moved rather peculiarly (Nothing like they had ever seen before). They were rather frightened. Then they turned off of Wilmington Pk and the object appeared off to the side and it appeared to follow them. Eventually it disappeared.
